

Lucy Robbins Welles Library Instructions to Download and Use Library eBooks On the Nook

If you have any questions, please call the library's Information Desk at (860) 665-8700.

The library currently has approximately 3,000 downloadable eBook titles. This collection contains a variety of fiction and nonfiction books for children, teens and adults. You may have up to four downloadable titles checked out on your library card at one time and you may have up to four downloadable items on hold at one time. Downloadable books are not renewable, however if no one has placed a hold on the book, you may check it out again.

Access the Downloadable Catalog

- Go to the library's website, www.newingtonct.gov/library.
- Click on Download Media.

- Click on OverDrive Downloadable Books. The Connect Downloadable Catalog will open.

Install Adobe Digital Editions

If this is your first time transferring an eBook from the library to your eReader, you need to install Adobe Digital Editions on your computer. Adobe Digital Editions is software that acts as a liaison between your computer and the Nook. As long as you keep this software on your computer, you will only have to download and install it one time.

The process involved in downloading your first eBook is a bit cumbersome because you will have to install Adobe Digital Editions, and then register your computer and the eReader. Downloading your second eBook will be much quicker and easier!

To install Adobe Digital Editions:

- Scroll down on the Connect Downloadable Catalog screen almost to the bottom. Click on Adobe Digital Editions on the left hand side of the screen.
- Follow the prompts to complete installation. During this process, you will be asked to create an Adobe account. This is a free account. Adobe uses this account to limit copying, printing and sharing of eBooks. It will not allow you to use the library's eBooks unless you create an account.

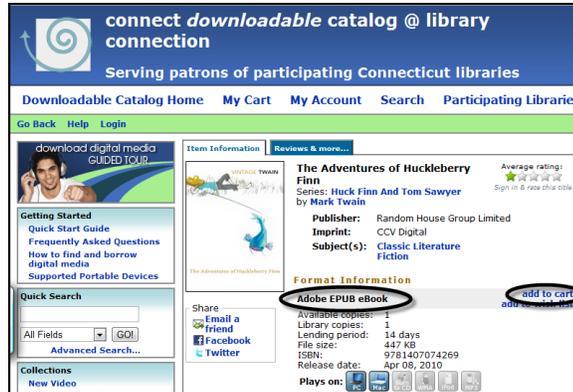

Select and Checkout an eBook

- Login using your library card.
 - Click on Login.
 - On the next screen, select the library that matches the library on your library card.
 - Type in the library card number shown on the back of your library card (with no spaces) and click on Sign In.
 - Click on 'Downloadable Catalog Home'.
- Locate an eBook that you would like to read. You can do this by:
 - Browsing through all eBooks (click on eBooks – Newly Available) OR
 - Searching for a book with the Advanced Search function. On the Advanced Search screen, enter the author and/or title or subject you wish to find, and be sure to set Format = "Adobe ePub eBook". Click on Search.

- Before you checkout the book, make sure it is in Adobe EPUB eBook or Adobe PDF eBook format (see screenshot below). If the eBook is already checked out to another

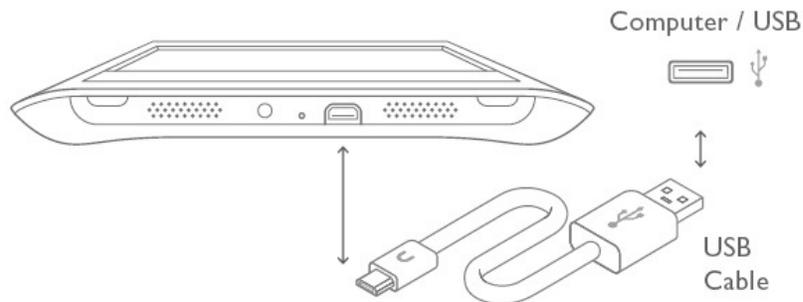

patron, you may put it on hold, otherwise, click Add to Cart. If you place a hold on a book, you will receive an e-mail when the book is available for you to checkout. You will have 48 hours to check out the book before it is returned to the collection or released to the next patron waiting for the book.

- If you added a book to your Cart, click on Proceed to Checkout on the next screen.
- On the checkout screen, select the lending period (either 7, 14, or 21 days). Click on 'Confirm Checkout'. The book is now checked out on your library card.

Transfer the eBook to Your NOOK

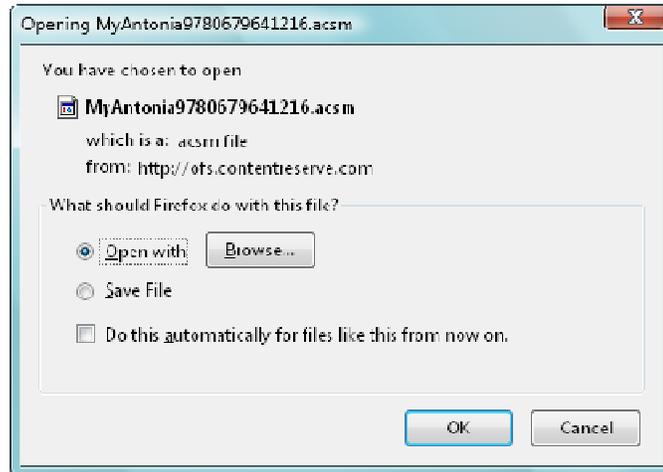

- Turn on the Nook.
- Connect the Nook to your computer with the supplied USB cable.

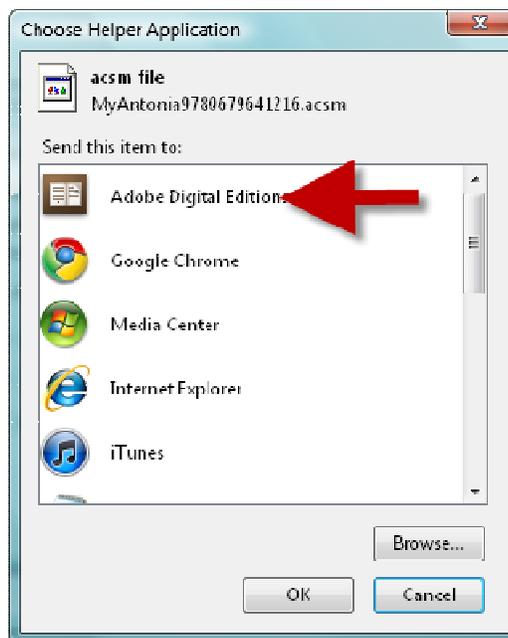

- In the Connect Downloadable Catalog, click on download (see image below).

- You will be prompted to Save or Open this file. (Keep in mind that the prompts you see on your computer may be different than those pictured below. Different versions of Microsoft Windows and different browsers may show different popup windows). Select Open With and click on the Browse button. See image below.

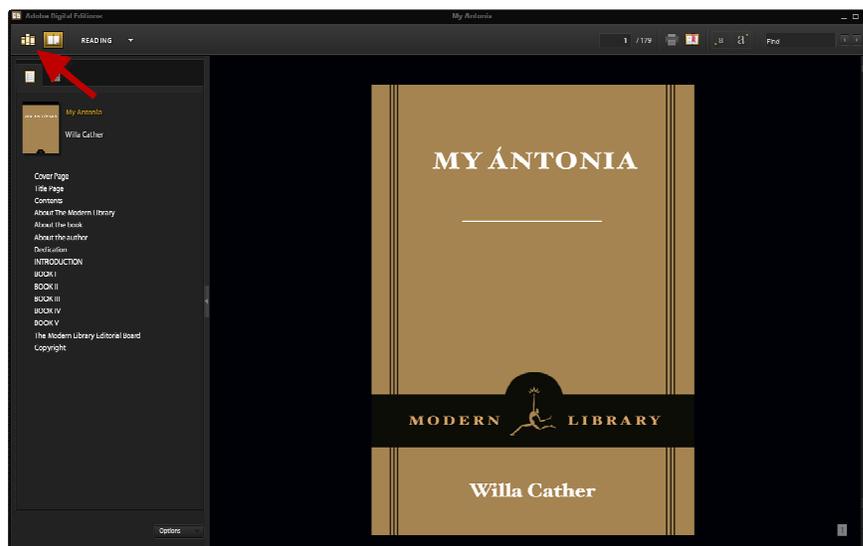

- On the next popup screen (see image below), select Adobe Digital Editions and click on OK.

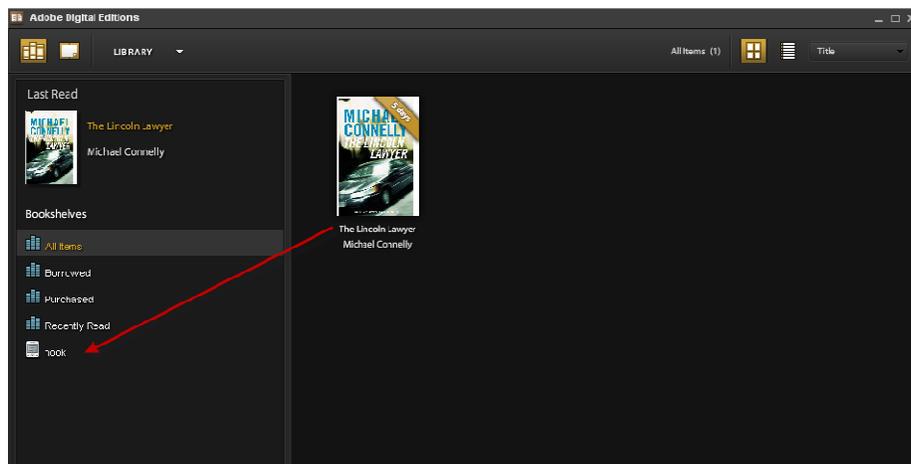

- You may get another popup screen similar to the one pictured below. If so, Click OK.

- The book will be transferred to Adobe Digital Editions. It will look similar to the image below, showing the book you just checked out. Click on the library button (see image below) to see a list of the books in your Adobe Digital Editions Library.

- To move your eBook to the Nook, drag the title of the book to the Nook icon on the left side.

- The book is now on the Nook and the process is complete. To remove the Nook from the computer safely, click on the Safely Remove Hardware icon in the system tray.

- Disconnect the Nook from your computer.

Find the Book on Your Nook

Nook Color and Nook Tablet

- Press the Home button (upside down U).
- Touch the My Library icon on the bottom of the screen.
- Select My Stuff on the top right of the screen.
- Touch My Files in the drop down list.
- Touch Digital Editions folder.
- Touch the book cover and enjoy your eBook!

Nook Simple Touch

- On the Nook Simple Touch, the library's eBooks will automatically appear in the Nook's Library.

Nook 1st Edition

- Touch the home button (the lowercase "n" in the black bar between the E Ink screen and the LCD touchscreen).
- Touch the "my library" icon on the touchscreen.
- At the top of the eInk screen you will see either the words "My B&N Library" (referring to Barnes & Noble eBooks) or "My Documents". If you see "My B&N Library" you will need to toggle over to "My Documents" by selecting the first option in the touch screen menu, "Go to My Documents".
- Select the item and enjoy your eBook!

Return a Book Early

- If you wish to return the book before the end of the lending period, open Adobe Digital Editions, select the book, and click on the small arrow at the top left side of the book cover. Click on Return.
