

CONSTRUCTION NOTICE

Newington Area – Church Street Easement

Beginning Thursday **August 1st***, the Metropolitan District (MDC) and their contractor, Insituform Technologies Inc. (ITI) will begin working in your neighborhood to make improvements to your sanitary sewer. The work includes repairing sewer pipes using a Cured-In-Place Pipe (CIPP) or “No-Dig” method and repairing and replacing sewer manhole frames and covers. During the lining process the MDC and its contractor will require access to the sanitary sewer and manholes via existing easements for personnel and equipment. All equipment will be removed at the end of the day, and any areas disturbed by these activities will be restored to match existing conditions. The bypass hoses will be placed along the ground surface in the easement area to the downstream manholes. Work is scheduled to be completed in approximately 3 days.

Work Hours are between 7:30AM and 5:00PM

You will receive further notifications as the work progresses.

**Schedules are subject to change based on weather and unforeseen construction related activities.*

If you have questions or concerns, please contact:

Sam Razumny, Construction Inspector at (860) 559-5606

After hours, please contact the MDC's *Command Center at (860) 278-7850 ext 3600*

Thank you for your patience and cooperation.
