Date: August 14, 2020
Subject: **Petition #22-20: Subdivision Text Amendment (Sec. 2.0, 3.0, and 6.0: Low Impact Development Regulations). Newington TPZ, applicant.**

At the TPZ meeting on May 27, 2020 the consensus was to remove the LID requirements from the subdivision regulations entirely, rather than just exempt small subdivisions.

The proposed amendment will restore the subdivision regulations to the way they were prior to the adoption of LID in 2014. Subdivisions will be required to ensure that the rate of stormwater runoff from the site post-development is no greater than the rate of runoff prior to development, which was the standard before LID. Subdivisions will be permitted to achieve that through conventional detention basins and underground detention structures.

There is no requirement to refer subdivision regulations to CRCOG.

As requested by Town Council liaison Gail Budrejko, this memo and the proposed amendment will be sent to the Conservation Commission for their information.
