The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The purpose of this project is to construct sidewalks along Cedar Street to improve pedestrian accommodations and a continuous network between transit, retail, and educational facilities in Newington.

Right-of-way impacts are anticipated through permanent easements for the construction of the sidewalk.

Construction is anticipated to begin spring 2026. The estimated cost for this project is approximately \$2.6 million with 80% federal funds and 20% state funds.

Members of the public may submit comments and questions during the two-week public comment period following the meeting. Please submit comments and questions by Wednesday, May 14, 2025, to Devin.Racicot@ct.gov or (860) 594-2735. Please reference Project No. 0093-0251 in the email or voice mail.

PROJECT DESCRIPTION

**State Project No. 093-251
Route 175 Sidewalk
Town of Newington**

Location: This project is located on Route 175 (East Street/Cedar Street) and Route 505 (Fenn Road) in the Town of Newington. The project area is approximately 3,500 feet long and extends east from the Route 175 intersection with Route 505 to where Route 175 intersects Maple Hill Avenue.

Description: The project includes the construction of sidewalk along north side of Route 175 to improve pedestrian accommodations and provide a continuous sidewalk network between pedestrian traffic generators and various transit, retail, and education facilities within and nearby the project area. The project also includes, illumination, bus stop amenities, crosswalks, pedestrian traffic signal equipment and pavement markings.

Rights of Way: Permanent easements for the construction of the sidewalk are anticipated to be required.

Environmental Impact: The project is not in an area of NDDB concern. The project crosses over the floodway associated with Piper Brook, there are no locations listed on the historic register within the project limits.

Utilities: Utility poles may require relocation depending on more detailed field survey and design of the proposed improvements.
