### Shark Lady: The True Story of How Eugenie Clark Became the Ocean's Most Fearless Scientist by Jess Keating

At nine years old, Eugenie Clark developed an unexpected passion for sharks after a visit to the Battery Park Aquarium in New York City. At the time, sharks were seen as mindless killing machines, but Eugenie knew better and set out to prove it. Despite many obstacles in her path, Eugenie was able to study the creatures she loved so much. From her many discoveries to the shark-related myths she dispelled, Eugenie made wide scientific contributions that led to her being nicknamed Shark Lady.

1. WATCH and LISTEN to SHARK LADY being read by Dreamscape Media, LLC on Hoopla:

<https://www.hoopladigital.com/title/11969218>

2. Choose an activity (or two!) to extend the fun:

- READ more about Sharks by exploring Pebble Go! Find out more about their natural habitats and even more fun facts! Pebble Go has information on ten different types of sharks, choose any one to learn more about!
