Town Planner

EROSION AND SEDIMENTATION CONTROL BOND APPLICATION

The Town of Newington requires the submission of a **\$500** Erosion and Sedimentation Control bond for all projects that involve the construction of an addition or new building, in all zones.

Check will be held until work is completed to the satisfaction of the Town Planner or his/her designee. Building inspections will not be performed until Planning and Zoning has completed an Erosion Control Inspection. E & S Bond may be forfeited, if erosion measures are not maintained.

Date _____

Check # _____

Address of Subject Property _____ Owner Name _____

Person Responsible for E&S Controls _____

Phone _____ Email _____

Project Description _____

E&S CONTROLS MUST REMAIN IN PLACE FOR THE DURATION OF THE PROJECT

The undersigned hereby acknowledges that Erosion or Sedimentation to nearby properties is an extreme health and safety concern, and that failure to establish or maintain erosion controls may result in the Town of Newington doing so, at their expense to protect neighboring properties.

Signature _____
